PROFESSIONAL SUMMARY

Passionate and motivated Full Stack Developer with hands-on experience in designing and developing modern web applications using React.js, Svelte, Firebase, JavaScript, Python, and Java. Skilled in building responsive, scalable, and user-friendly applications with strong problem-solving abilities. Eager to contribute to innovative software solutions while continuously learning emerging technologies and growing as a software professional.

PROJECTS

Community Skills Exchange (Currently Working)

Technologies: React.js, HTML, CSS, MongoDB

- Developing a platform that enables users to exchange skills and connect with learners and mentors.
- Implementing authentication, profile management, and skill-based matching.
- Designing responsive and interactive user interfaces.

Job Portal

Technologies: React.js, Salesforce

- Developed a job portal for job seekers and recruiters.
- Implemented job posting, application management, and profile creation.
- Integrated Salesforce to manage recruitment-related information efficiently.

Life-Link – Blood Donation Management System

Technologies: Svelte, Firebase

- Developed a blood donation management system with donor registration and recipient request modules.
- Integrated Firebase Authentication and Firestore Database.
- Designed a responsive and user-friendly interface using Svelte.

Quiz Quest

Technologies: HTML, CSS, JavaScript

- Developed a responsive online quiz application.
- Implemented multiple-choice questions, score calculation, and result display.
- Designed an interactive user interface.

INTERNSHIP EXPERIENCE

AI Chatbot Development Intern

Jul 2024

Datanerdz.AI

- Developed an AI-powered chatbot using Python.
- Improved automated customer interaction through intelligent response generation.

Digital Marketing & Web Development Intern

Dec 2023

Netsea Tech Solution

- Designed responsive websites using HTML, CSS, and JavaScript.
- Developed client-based web pages with a focus on responsiveness and usability.
